Discuss <b>WHO</b> is in the story, <b>WHAT</b> happens to them and <b>HOW</b> the story ends.
Read 10 minutes or 1 book  Practice name writing	Read 20 minutes or 2 books  Practice name writing  Count to 100. This is an end goal! Have your child count as high as s/he can and when they can't go further, fill in the rest up to 100, or beyond.	Enjoy Your Summer!		

Strictly speaking, preschool students should NOT have homework. They should spend time reading books and having conversations or experiences with people who care for them. They should never have worksheets. Parents however LOVE paper homework and kids like it too, so who are we to deny you? Please use this calendar to do a fun learning activity each weekday with your child. Remember that at this age, they *want* to learn, so help them without forcing. If it becomes stressful, stop and try it again another time. We all want Room 111 kids to love learning the way it's done at school, so that they can travel smoothly from preschool through college. Let's get to work!
