

SSFAA PRESCHOOL ROOM 111 NEWS

Olatomiwa and Semi put on a concert during small group rotation

News You Can Use

It's May and our science area will soon be full of babies...caterpillars that will be butterflies and eggs that will - with any luck- hatch into chicks. When they arrive, the kids will be excited, so remember to ask your child about our animals as we track their growth every day.

This month we will also plant seeds. Be prepared to take home and care for some plant babies. Some are sturdier than others, so take care to read the instructions that are included with each.

We will take a trip at

the end of the month to learn more about butterflies and other growing things, and spaces for parents are limited, so please let us know if you want to join us as soon as trips slips come home.

Last, please remember that as the weather warms up, we will head out to the playground again. Please make sure that your child is dressed for the weather. Sweaters are always a good choice.

As always, feel free to contact us with any questions at the number below or via email at hmduncan@cps.edu.

Don't forget to check our website, Facebook page and Facebook group regularly and follow @authenticpreschool on Twitter for links to pictures and stories about Room 111! Use this QR code to get there fast!
